Metal frame						✓	✓

*) Not on XS

1) Have your dog sit next to the opened backpack.

2) Carefully guide the front legs through the openings.

3) Fasten the collar closure.

4) Place the tail and hind legs in the bag and close the zipper. Open the collar closure briefly and thread it through the zipper loop, so that the zipper cannot open by itself.

5) Tighten the lumbar support straps and lift the dog under the front legs.

6) Tighten the shoulder straps, so that the dog sits high against your shoulder.

Have fun together!
